MOLO

OUTDOOR COLLECTION 2021

HOUE

We are driven by affordable luxury as a philosophy, by choosing the right materials and solutions. We draw from a proud heritage of Danish design and craftsmanship with mass appeal. HOUE offers both an outdoor and indoor collection, always meeting our high standards in terms of design, price and quality.

**HOUE IS A DANISH DESIGN HOUSE FOUNDED IN 2007.
WE COMBINE GREAT COMFORT AND DESIGN IN OUR WORK.
WE ALWAYS PUT A LOT OF EFFORT INTO OUR
PRODUCT DEVELOPMENT STRIVING TO MEET
A HIGH STANDARD.**

MOLO

A BEAUTIFUL BAMBOO SUNBED.

MOLO Sunbed is made in soft rounded bamboo lamellas with leg construction in powder coated black metal.

The back of MOLO Sunbed is adjustable and has five different positions, which makes it possible to either lay down – or sit. MOLO is versatile and can be used indoor as daybed too.

MOLO Sunbed is beautiful as it is with the warm bamboo surface, but for even more comfort you can add the MOLO Sunbed cushion in Sunbrella fabric. The Sunbrella fabrics are water and stain resistant. The cushion is available in 3 different colors.

Designed by Henrik Pedersen.

CREATE A LUXURIOUS OUTDOOR LOUNGE AREA.

MOLO SUNBED

**MOLO IS VERY VERSATILE – USE IT
AS A BENCH, A SUNBED OR EVEN INSIDE AS A DAYBED.**

MOLO AS A BENCH.

THE BACK OF MOLO SUNBED IS ADJUSTABLE AND HAS FIVE DIFFERENT POSITIONS, WHICH MAKES IT POSSIBLE TO EITHER LAY DOWN – OR SIT.

BAMBOO IS THE LARGEST MEMBER OF THE GRASS FAMILY

**THE GROWTH OF BAMBOO IS VERY FAST – THE SPECIES
THAT WE USE FOR FURNITURE GROW MORE THAN ONE
METER WITHIN 24 HOURS! BAMBOO RE-PLANTS ITSELF.
NEW BAMBOO SHOOTS WILL SPREAD FROM THE ROOTS.**

Bamboo releases more oxygen than any other plants, actually 35% more than ordinary woods. This is due to the fast growth. Bamboo also recycles large amounts of CO₂. Bamboo can absorb 30% CO₂ and release more than 35% oxygen, so choosing bamboo as material means contributing positively to CO₂ evolution. In addition to being, a very fast-growing plant, bamboo is a very strong and hard material and stronger than traditional woods. Bamboo is very stable and is affected only very little by humidity.

BAMBOO CARE The bamboo on MOLO is treated with a special impregnation from the factory, which is drawn into the bamboo. To keep the bamboo nice, it is necessary to treat it on a regularly base with oil suitable for bamboo. We recommend you to, oil the bamboo parts before taking the furniture into use, and again after approx. 4 weeks, then as needed (3 – 4 times a year).
